4 Bedroom, 3.50 Bathroom, 2,821 sqft
Residential on 8 Acres

Rural, Shelbyville, KY

Kentucky living at its finest. With 8.37 acres of land, a long stretch of road frontage, a full basement, and a fully-equipped metal barn... this 1-owner, custom-built, geothermal-powered home combines both versatility and serenity. Where else can you get views like this? Inside, there are 3 bedrooms and 2.5 bathrooms on the main level, along with a large laundry room, living room, kitchen, dining area, den, and sun room. Another bedroom and full bathroom in finished portion of basement. Although the basement offers lots of room for storage and also a storm shelter area (with a great space for a workshop or home gym), this accessible home offers the option for stair-free day-to-day living all on the main level. Even with roughly 2568 SF on main level and 253 SF finished downstairs, the geothermal-powered system keeps utility costs low. 30x40' barn has electric, roughed-in plumbing, a poured floor, overhead door, and an attached 12x28 lean-to shed area. Convenient to US-60 and I-64. Come see this back yard for yourself and imagine all you could do with it.
